Each Greenhouse Kit Includes: UV resistant, shatter-proof polycarbonate glazing covering. A full set of pre-cut, color coded struts and framing. Also included are automatic opening vents, a 24" foundation wall, a door with window, a solar powered under-soil heating/cooling fan, structural siding, Reflectix insulation, all hardware, and a shade cloth.

Items Supplied by Owner: The Growing Dome[®] is purchased as a kit, designed to be owner-installed. Some items are bulky, expensive to ship and readily available at your local building supply store, so they are not included in the kit. Upon purchase of your Growing Dome[®], we will provide, along with a full installation package, a detailed list of these items with measurements and quantities. **Approximate cost of Owner Supplied Items is as follows:**

| | |
|----------------------------|----------------------------|
| 15 foot diameter - \$ 650 | 18 foot diameter - \$ 700 |
